4.7 / Emotion

Name _____ Date _____

1 Make the connection.

Explain each concept in your own words. Add a brief example that shows why it fits.

Physiological arousal

Cognitive appraisal

Emotional labeling

Bodily-response-first account

2 Build the explanation.

Three components, different jobs. Place each statement in the model.

Choose from the pieces below. Some do not belong. Write a letter in each position and explain the connection.

A. A character notices faster breathing.

B. The character describes the experience as excitement.

C. The character evaluates the event as a welcome challenge.

D. Faster breathing alone proves the exact emotion.

Bodily component - Piece: _____

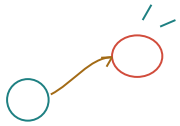

Appraisal - Piece: _____

Labeling - Piece: _____

Show the connection.

Sketch a diagram or example that connects two ideas. Label the parts.

Use the idea. Explain the connection.

3 Choose, then explain.

1. Which ethical safeguard is actually present in this simulated record: participants can stop at any time without penalty?

A. Deception that the record never describes

B. The right to withdraw

C. A promise of total anonymity that the record never states

My choice: _____ Why it fits:

2. Which conclusion best respects evidence about emotional expression?

A. There are recurring patterns and meaningful contextual variation.

B. Every face has one exact meaning everywhere.

C. Every person from a culture expresses emotion identically.

My choice: _____ Why it fits:

4 Bring it together.

Compare the three proposed sequences without relying on historical theory names.

One idea I corrected: _____

One question I still have: _____
